Y2K INFORMATION TECHNOLOGY DIRECTIVE

SUBJECT: Department Critical Systems	NUMBER: 1999-07
REFERENCES: Governor's Executive Order D-3-99	DATE ISSUED: September 21, 1999
	SUPERSEDES:

To: Agency Secretaries
Department Directors
Chief Information Officers
Year 2000 Project Managers

From: DEPARTMENT OF INFORMATION TECHNOLOGY

As required by Governor's Executive Order D-3-99, all mission critical systems were to be completed by September 1, 1999. Nearly all of these systems have now been remediated and all are to be congratulated and thanked for the hard work that was done. For the few systems not yet complete, staff are redoubling their efforts to ensure prompt completion.

As all mission critical systems are completed within an entity, attention is being focused on Departmental Critical systems. The purpose of this Directive is to remind all entities of the importance of completing these items. In addition, all entities are reminded to keep the Department Critical information up to date using the DDA web reporting tool.

If you have any questions on this directive, please contact your DOIT oversight manager.

JEFFREY R. PELL
Year 2000 Program Director
